DEAF COMPUTER LEARNING CENTER
(A PROJECT OF PAKISTAN ASSOCIATION OF THE DEAF)

Introduction:

Deaf Computer Learning Center was launched by PAD in 1999. Since then we at DCLC are working our best to impart computer literacy to deaf children. We have trained hundred of deaf students in different computer courses.

Now we have renewed our computer lab with latest Dual Core computers, and we are offering more advance courses that are in demand in market, such as Graphic Designing, office automation, hardware etc.

PAD is first choice for deaf student as our instructors are well educated and experienced in their respective field and are native signers (Pakistan Sign Language), so the deaf student feel comfort and do not face any communication barriers.

Purpose:

The purpose of the " Deaf Computer Learning Center " is to provide a quality program to respond to the urgent needs of deaf persons in Pakistan , i.e., Hardware, Office Automation, I.T and 3D Graphic Designing & Animation, Web Designing & Development, Print Media and other etc. However, the DCLC's primary objective is educational with specific emphasis on children, their families, and young adults. The team of DCLC believes in the empowerment of the Deaf in general, including the family of the deaf person. The program therefore also responds to the needs of deaf adults through further education and Computer Learning classes. It reaches out to the country of the hearing with information that helps spread awareness about deafness, how to deal with the deaf and on prevention of hearing loss.
